# Payroll (Malaysia)

## Input Staging Update

**IMPORTANT NOTE:** The “TAX\_CODE” column will **not** be displaying in the input staging table for Malaysia company after the release. The Admin is **not** allowed to amend the employees’ tax code from staging table itself due to data consistency and accuracy purposes.

Tax code for employee will directly refer to “Employee Profile -> Dependent [tab]” therefore, any incorrect Tax Code for the employee(s) will have to update in the Employee Profile before the Payroll Processing.

If Admin wish to check employee tax category from Employee Profile, there will be a quick link to redirect you to the page. From there, Admin is able to export to Excel format.

## Passport Notification Setup

The Passport notice period setting has now split into separate items so that the admin could setup the notification period by individually.

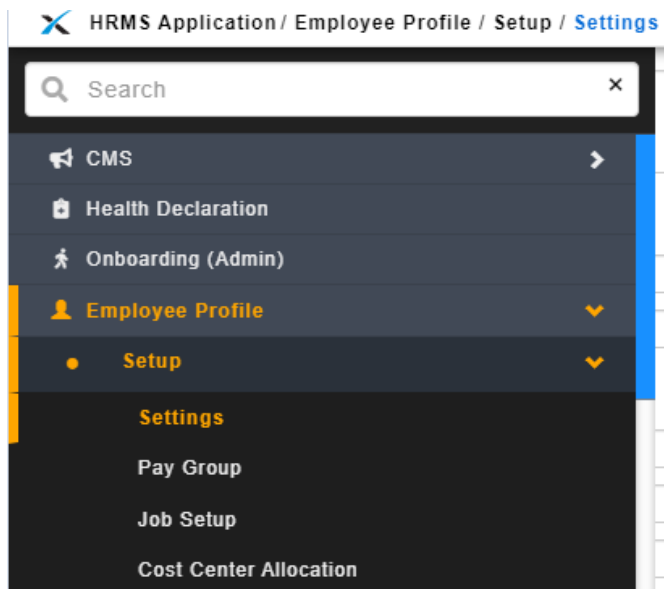

### Added Notification Setup for Passport

Additional Passport Notification has been added into the notification setup in order to notify/remind the admin/supervisor(s) to update the employees' Passport information when it is due.

**\* Note:** The notification will trigger to the admin/supervisor(s):

1. **1 time** on the duration set prior to the expiry date.
2. **1 time** on the expiry date itself.
3. In **daily basis** after the expiry date for 3 months duration only.

Go to “Employee Profile – Setup – **Settings**” module for the setup.
